ANDROID PHONES

Android phones for mobile data collection

- 👤 Android phones have been used in various types of survey in many countries
- 👤 Pros
 - More accurate results
 - Faster
 - Easier to review, analyze, improved feedback from supervisors
- 👤 Cons
 - Expensive and fragile technology

Features of the phone, your responsibilities

- ⓘ These phones are the property of UNHCR (or that of the partner). When they are in the hands of the enumerator, they are under his personal responsibility
 - **Never** leave the phone unwatched
 - **Never** leave the phone on a desk or bed, keep it in your pocket or handbag
 - Be careful!
- ⓘ Enumerators will have to sign a waiver to acknowledge their responsibility over the phone

Example of sheet that needs to be signed every morning by the team leaders and every night by the survey supervisor. Hence the team is responsible for the phones during the data collection period, but not overnight when the phones are with the survey manager.

LET THE HOUSEHOLD KNOW YOU WILL BE USING A PHONE...

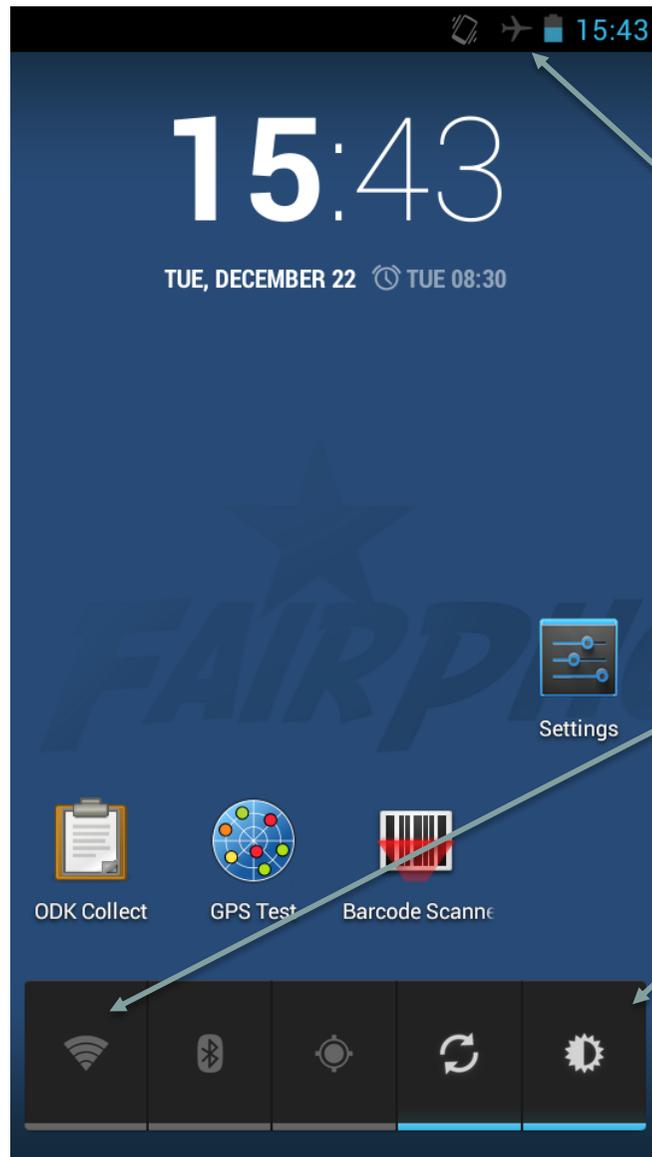

- ① Something to consider is that this new technology may be intimidating.
- ① It is a good idea to let the person you are interviewing know what you are doing with this piece of equipment when you get the general consent of the family.

Introducing Android phones

Power management and phone settings

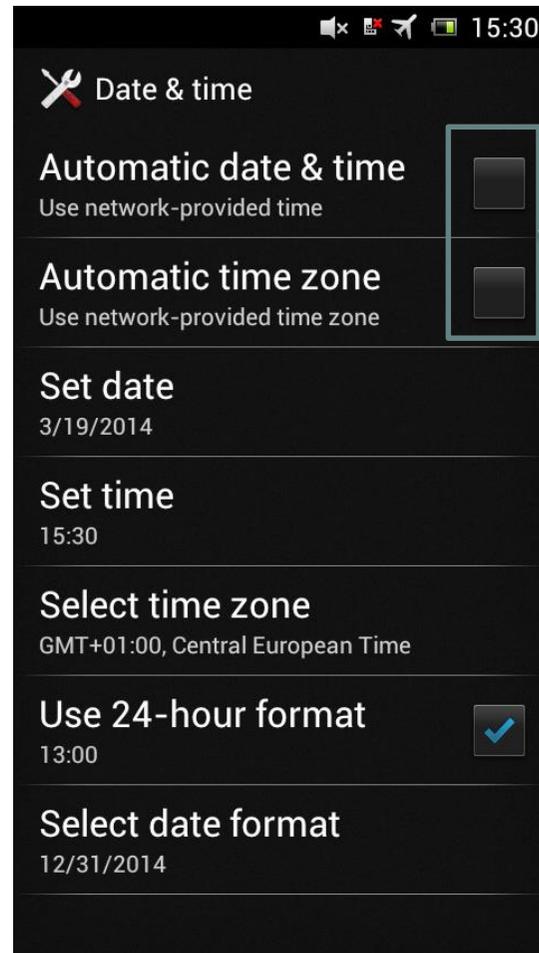

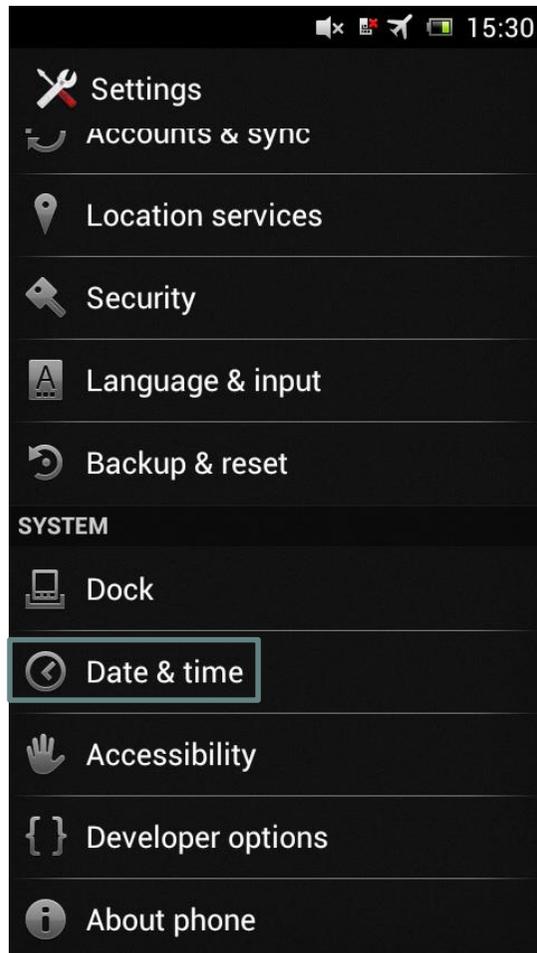

To save power...

- Flight mode **on**
- WIFI **off**
- luminosity must be **low**

Power management and phone settings

Make sure your phone is in Flight mode, that the WiFi is off and the luminosity of the phone is set to low.

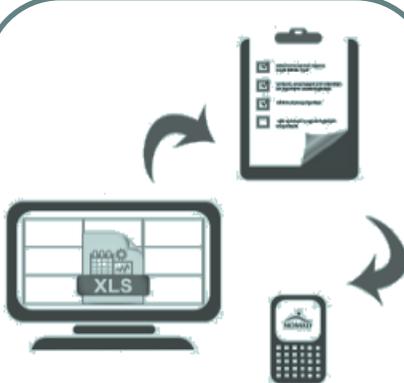

Group discussion:

- What are the consequences of the phone's date on the survey?
- What happens if you accidentally delete the ODK application from the home screen?
- How does the phone needs to be configured to save battery?

THE ODK APPLICATION

The phases of an MDC

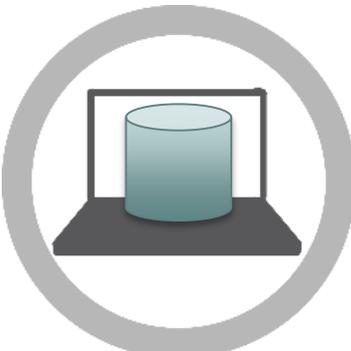

Design

The Design phase icon shows a computer monitor displaying an XLS spreadsheet, a mobile phone, and a clipboard with a checklist. Arrows indicate a workflow from design to data collection.

Collect

The Collect phase icon depicts two human silhouettes, one holding a mobile phone, representing the data collection process.

Manage

The Manage phase icon shows a laptop with a cylinder on its screen, symbolizing data management or storage.

Analyze

The Analyze phase icon features a map with location pins, a bar chart, and a document with a person silhouette, representing data analysis and reporting.

XLS Forms

The block shows a screenshot of an XLS spreadsheet with data columns and rows, and the KoBo Toolbox logo below it.

ODK Collect

The block displays a screenshot of the ODK Collect mobile application interface, showing options like 'Remplir un formulaire' and 'Editer un Formulaire Sauvegardé'.

Exercise 3: Scenario

WASH form: you are interviewing household 24 in block 4. The household has four members: one woman (pregnant), one child (24 months), one teenage daughter (15 years old) and an adult man. They own two 10 liters containers which they fill twice a day. Additionally, they have two containers of 3 liters which they also fill twice a day. They use water from a standpipe, which fortunately for them is just in the courtyard. They use a pit latrine which is shared with the neighbouring household.

After you completed and saved the form, record the number of liters per person per day used by this family.

Adapt to last version of the paper form (sources of Water etc) + add pics of containers?
